Can I suggest you monitor the MRC channels to listen for these stations

I hope to be contactable on 0417 374 436, or Skype: Tony355 all weekend – Tony
There is also a Zello Mountain Radio Challenge channel, which is great for communications where mobile internet access is poor.

I encourage you to publicise the MRC event, and suggest you point people to the website of www.mrc.cat.net.au or they can google “mountain radio challenge”
